19.

While we have not set aspirational Institutional Set Standards, our Strategic Plan includes performance indicators and targets that we have set for institutional improvement and achieving the goals in our Strategic Plan. The plan covers a period of three years.

The Registered Dental Assistant Practical licensure exam has been discontinued--which is why no data is entered for the current year.

The ISS for the Registered Nursing job placement rate wasn't met this year. According to the nursing graduate survey data, all students who responded--if they were not employed in the field--were pursuing further education. Also, the department is looking into ways to get a higher response rate on their graduate survey. This year, they shortened the timeframe to be closer to graduation than their typical 9 month post-graduation window. They believe that may have influenced the results and are testing that by returning to their 9-month window for the coming year.

The data included in this report are certified as a complete and accurate representation of the reporting institution.

If you need additional assistance, please contact the commission.
