

### **Agenda Item Details**

---

Meeting	Jan 20, 2015 - Regular Board Meeting
Category	H. Consideration and Possible Action
Subject	5. Scheduled Maintenance Five Year Plan 2015-16 through 2019-20
Type	Action
Recommended Action	The Superintendent/President recommends that the Board of Trustees approve the attached Five-Year Scheduled Maintenance Plan for submission as required to the State Chancellor's Office.

### **BACKGROUND**

The attached Five-Year Scheduled Maintenance Plan is provided to the Board of Trustees for your approval. This draft plan was submitted to the State Chancellor's Office on January 8, 2015 and will be finalized upon approval.

The Five-Year Scheduled Maintenance Plan reflects current knowledge of the District's facilities' needs. The Chancellor's Office, however, allows Districts considerable freedom to redirect money to respond to changing conditions. Projects for 2015/16 through 2019/20 reflect areas that are in sufficient need of repair or replacement. The District's Scheduled Maintenance Plan is oriented heavily towards basic repairs, e.g. roofs, ADA compliance, life/safety and energy efficiency, and will be changed as the District identifies facility needs through the Educational Master Plan and subsequently, the Facilities Master Plan and Measure C Modernization program.
