Executive Summary

In 2012, the U.S. Department of Education (USDE) issued several new regulations for institutions and accreditors related to student achievement. As a result, the Accrediting Commission for Community and Junior Colleges, Western Association of Schools and Colleges (ACCJC) and its evaluation teams are examining and evaluating colleges based upon such new regulations. ([Implementation of New U.S. Department of Education Regulations New Evaluation Team Responsibilities](#))

In order to comply with the USDE's new student achievement-related mandates, College of Marin created and integrated Strategic Objective 6.1 into its Strategic Plan 2012-2015 which states the following:

The College will set standards of satisfactory performance for student success and assess the appropriateness of the standards via program review and input from constituent groups to align with the *Implementation of the New U.S. Department of Education Regulation New Evaluation Team Responsibilities*

The intent of this objective is for COM to set standards of satisfactory performance for student achievement, and evaluate itself against those standards at the programmatic and institutional levels. The College then will examine its own analyses and determine whether its institutional standards for student achievement are reasonable.

Based on the expectation from USDE and the requirement by ACCJC set forth in its Annual Report 2013, the College provided the following student achievement information and set standards of satisfactory performance for students' success):

COM Student Characteristics

College of Marin (COM) has 6,620 students enrolled (unduplicated headcount) for its spring 2013 semester, of which 24 percent are full-time students and 76 percent are part-time students. Approximately 22 percent of COM's students have a bachelor's degree or higher. About 36 percent of its students came to COM in pursuit of an associate degree, 16 percent for transfer, and 18 percent for career education. The majority of COM students received an Associate in Arts (A.A.) degree (52 percent), 26 percent received an Associate in Science (A.S.) degree, and 22 percent received career certificates.

Student Success Scorecard 2013

Completion:

According to the state scorecards, 75.2 percent of College of Marin students who do not need to take remedial math or English courses complete a degree or certificate or transfer to a four-year college. That rate drops to 48.4 percent for those who do need remediation. Those disparities persist across the state's community colleges. Statewide college-prepared students have a completion rate of 71.2 percent, while the unprepared students complete at a rate of 41.1 percent.

Completion rate: Overall, COM has a higher completion rate than the state average.

Persistence:

The scorecards also track student persistence over a year-year period. Persistence is defined as student enrollment for three consecutive semesters. Being enrolled for consecutive semesters is an indicator that a student is more likely to complete their degree or certificate. About 46 percent of College of Marin students who do not need to take remedial math or English courses persisted. That rate increases to 61 percent for those who do need remediation. The percentage of our prepared students on persistence rate is lower than the state average because the majority of them transferred out to four-year-universities before they got counted in the persistence statistics.

Persistence rate: Overall, COM has a lower persistence rate than the state average.

30 Units:

The scorecards also track how many students complete 30 units or more -- the half-way mark in most community college programs (and tend to be positively correlated with completion). About 62 percent of College of Marin students who do not need to take remedial math or English courses completed 30 units or more. That rate increases to 71 percent for those who do need remediation. The percentage of our prepared students on completing 30 units or more is lower than the state average because many of them transferred out to four-year-universities before they completed 30 units.

30 units+: Overall COM has a higher rate of 30-unit completion than the state average.

Remedial:

The scorecards also track how many students who enroll in remedial math or English later complete a college-level course in that discipline within six years. About 34 percent of College of Marin students completed college-level English courses; about 44 percent of our students completed college-level math courses; about 18 percent of our ESL students completed college-level English courses within six years.

Math remedial: COM ranks lower than the state average;

English remedial: COM ranks higher than the state average;

ESL remedial: COM ranks lower than the state average.

Career Technical Education:

The scorecards also track approximately how many students who enrolled in career technical programs and completed a degree, certificate or transferred within six years. About 52 percent of College of Marin students within the career technical programs completed a degree or certificate or transferred to a four-year college.

Career Technical education: COM ranks lower than the state average.

Course Retention and Course Success

In comparison with the statewide average retention and success rate, College of Marin (COM) ranks higher on both retention and success rates for the academic year 2011-2012. COM also ranks higher than the state average on both basic skills' retention and success rates.

Rate	Statewide 2011-2012	COM 2011-2012
Overall Retention Rate	85.2%	88.2%
Overall Success Rate	69.4%	72.6%
Basic Skills Retention Rate	84.8%	87.9%
Basic Skills Success Rate	62.8%	66.1%

The year 2011-2012 includes summer 2011, fall 2011, and spring 2012

Source: Chancellor's Office Data Mart (www.cccco.edu). Report created April 29, 2013.

COM also ranks higher than the statewide average of retention and success rates in the following areas: (a) credit students, (b) degree applicable students, (c) transfer students, and (d) vocational students. (See details in the section of course retention and course success in comparison with state average.)

Cohort Study

Cited below are single examples for English and math related to the study of cohorts..

English:

About 27 percent (55 out of 205) of our cohort students enrolled in English 98 in fall 2009 succeeded in English 150 before spring 2013. Twenty-five (25) certificates or degrees were awarded before spring 2013.

Math:

About five percent (nine out of 109) of our cohort students enrolled in Math 95 in fall 2009 and succeeded in Math 103 before spring 2013. Twelve (12) certificates or degrees were awarded before spring 2013. (a couple of students either got two degrees or two certificates (the reason that the numbers of certificates or degrees was higher than the number of students succeeded in Math 103.)

Degrees Awarded

For the academic year of 2011-2012, COM awarded 325 degrees and certificates; 170 in Associate in Arts (A.A.) degrees (52 percent), 85 in Associate in Science (A.S.) degrees (26 percent) and 70 in certificates (22 percent).

Transfer Information

The rate of the COM 2005-2006 cohort who transferred within six years is 46 percent and the state average is 41.6 percent. COM ranks 27th out of 110 California Community Colleges.

For the academic year of 2011-2012, 121 COM students transferred to the California State University (CSU) Campuses and 106 students transferred to the University of California (UC) Campuses.. The highest CSU rate of transfer is to CSU, San Francisco, followed by CSU, Sonoma. The highest UC rate of transfer is to UC Berkeley, followed by UC Davis. COM also had a fair amount of students (N=165) transfer to in-state private or out-of-state universities for the year of 2009-2010.

Time to Degree

For COM spring 2012 graduates:

- The average length of degree/certificate completion time was about 6.2 years (ranged between 0.8 year to 41 years).
 - For these graduates who took math at COM, their time to degree was about 6.5 years.
 - For these graduates who took English at COM, their time to degree was about 6.0 years.
- The average length of time for completion of math sequences was about 2.5 years; and for English sequences, it was about 2.2 years.
- It took 2 years for these graduates to start their English or math courses. (Time between beginning college and beginning math/English).
- The total hours (units) attempted for these graduates who received an A.A. or A.S. degree was about 92 hours/units; and they actually earned about 82.3 hours/units. (If we are using 60 units as a graduation requirement guideline for community college, our graduates took 22 more units to graduate).
- The total hours (units) attempted for these graduates who received certificates are about 65 hours/units; and they actually earned about 22.5 hours/units.

ACCJC Annual Report 2013

The ACCJC Annual Report 2013 (March 2013) required us to submit our institutional-set standard for student course completion, student retention, degree completion, number of transfer students, certificates of completion, ad CTE certificates and degrees.

The intent is that COM set standards of satisfactory performance or student achievement, and evaluated itself against those standards at the programmatic and institutional levels. COM then examined its own analyses and determined whether its institutional standards for student achievement were reasonable.

The following is information which COM submitted to ACCJC in March 2013. The expectation is that the College will use the information to have dialogue and evaluate the appropriateness of the standards.

Institution-set standard for student course completion: 70%
(Average of 5 fall semesters; lowest was 70.8%)

Institution-set standard for student retention: 45%
(Average of 5 fall semesters; lowest was 45.3%)

Definition

Retention Rate

It is the percentage of students retained in a class at the end of the semester. In Progress and Report Delayed grades are excluded. Grades of A,B,C,CR,P,D,F,FW,NC,NP,I divided by A,B,C,CR,P,D,F,FW,NC,NP,W,I.

Success Rate

It is the percentage of students who received a passing grade of A, B, C, CR or P (Pass) at the end of the semester. In Progress and Report Delayed grades are excluded. Grades of A,B,C,CR,P divided by A,B,C,CR,P,D,F,FW,NC,NP,W,I.

Cohort Tracking

The numbers in each box represent the number of grades not the number of students. The numbers in the Graduation Data box represent the number of degrees and certificates awarded not the number of students.

Program Review

WSCH, FTEF, Productivity (Load), Enrollment and Student Units

WSCH: Weekly Student Contact Hours (WSCH) is the number of hours a class meets per week times the number of students in the class. A class with 30 students meeting 3 hours a week has 90 WSCH. The more students enrolled in a class, the higher the WSCH. WSCH can be thought of as a measure of revenue.

FTEF: Teaching Units divided by 15. FTEF can be thought of as a measure of cost.

Productivity (Load): WSCH divided by FTEF. This calculation can be thought of as a measure of productivity (revenue divided by cost). The higher the number, the more cost effective a class can be considered to be.

Enrollment: A student is counted if he/she is enrolled at first census.

Student Units: Number of course credits times the number of students in a class (a 3 unit class with 25 students has 75 student units).

Degrees and Certificates

Awarded: Number of degrees and certificates that have been awarded.
