

College of Marin Bi-Annual Occupational Program Review (EC 78016) November, 2015

Every vocational or occupational training program offered by a community college district shall be reviewed every two years by the governing board of the district to ensure that each program, as demonstrated by the California Occupational Information System, including the State- Local Cooperative Labor Market Information Program established in Section 10533 of the Unemployment Insurance Code, or if this program is not available in the labor market area, other available sources of labor market information, does all of the following:

- (1) Meets a documented labor market demand.
- (2) Does not represent unnecessary duplication of other manpower training programs in the area.
- (3) Is of demonstrated effectiveness as measured by the employment and completion success of its students.

Summary of Findings from the Marin CTE Employment Outcomes Survey, 2015

Background on CTE
Employment
Outcomes Survey

Skills-building students from College of Marin were surveyed if they met one of the following criteria in 2012 – 2013 and did not enroll in 2013 -2014:

- Earned a certificate of 6 or more units
- Earned a vocational degree or earned 9+ CTE units

The survey addressed student perceptions of their CTE program, employment outcomes, and how their coursework and training related to their current.

A total of 553 students were surveyed and 138 unduplicated students responded.
