Library faculty taught 73 total information literacy instruction sessions during spring 2015. This is a decrease of 14 sessions from 87 sessions taught during fall 2014, but an increase of 11 session from 62 sessions taught during spring 2014.

Library faculty taught a total of 86 (85.92) hours during spring 2015. This is a decrease of 25 hours from 110 (110.42) taught during fall 2013 but an increase of almost 7 hours from 79 hours taught during spring 2014.

Courses taught in classrooms outside the Library were scheduled elsewhere either because the Information Literacy Classroom was already booked, or because the class size was too large for the Information Literacy Classroom to accommodate.

* Indicates not included in Total Instruction – Sessions (because already counted)

**Indicates not included in Total Instruction – Hours (because already counted)

***Indicates not included in Total Instruction – Students Reached (because already counted)

[^]Does not separate out students' participating in more than one session in the same section of the same course during spring semester (e.g., Dave King's ENG 151 received 2 information literacy sessions during fall semester. Total number of students in each section are included 2 times in the total number of students reached). This also does not separate students receiving information literacy sessions in different courses during fall semester (e.g., students who participated in a library session for their ENGL 120 course as well as their SPCH 112 course). In the future, library faculty may want to adjust reporting to accommodate for duplicate head count.
