Summary: Math Peer Tutoring Evaluations

Spring 2012 - Fall 2014

The hours when math tutoring is offered meet my needs.

strongly agree	24	57%
agree	15	36%
neutral	2	5%
disagree	0	0%
strongly disagree	1	2%

Additional comments:

It would be great if you were open until 6pm at least 2 times per week.

I just wish the tutoring center were open later

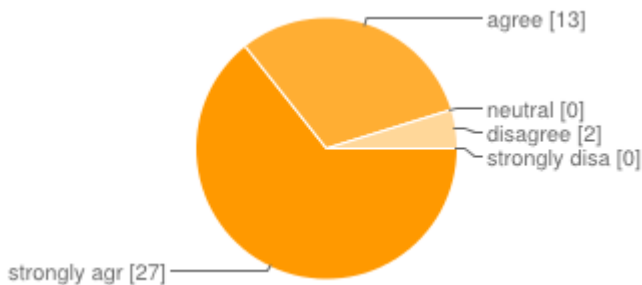

I wish that the student tutors stayed open until 6 pm at least 2 days a week.

Daniel is the man, very helpful in my eyes.

The online tutoring would be helpful if it had more hours.

I passed because of math tutoring.

The tutors I have worked with are knowledgeable about their subject.

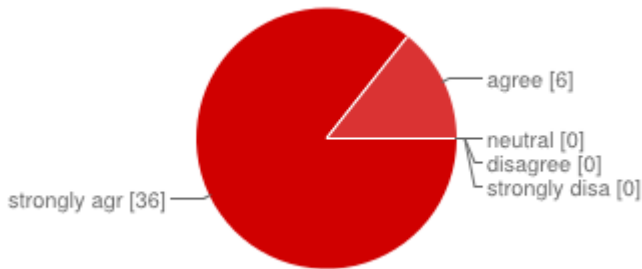

strongly agree	27	64%
agree	13	31%
neutral	0	0%
disagree	2	5%
strongly disagree	0	0%

Additional comments:

Sometimes a little too knowledgeable

Some are more helpful than others. Some who are in more advanced math classes are not as helpful.

Math tutoring is helping me to understand the course material better.

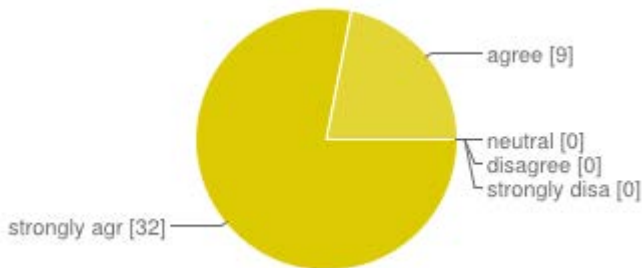

strongly agree	36	86%
agree	6	14%
neutral	0	0%
disagree	0	0%
strongly disagree	0	0%

Additional comments:

I have attempted math 101 for the 3rd time this semester. I am now getting B+s and As on my math tests. I used to hate math. Now it is my first choice in homework.

Math tutoring is helping me to improve my performance on exams and assignments.

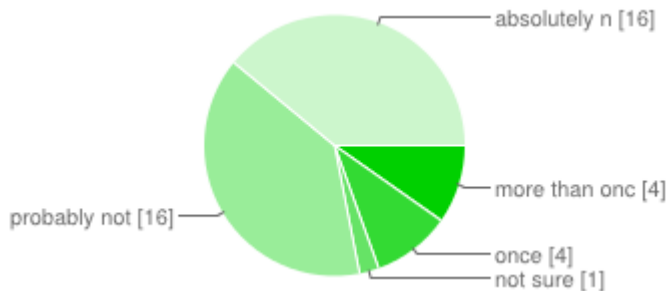

strongly agree	32	76%
agree	9	21%
neutral	0	0%
disagree	0	0%
strongly disagree	0	0%

Additional comments:

Absolutely

I have received incorrect answers or explanations from the tutors in the learning center.

more than once	4	10%
once	4	10%
not sure	1	2%
probably not	16	38%
absolutely not	16	38%

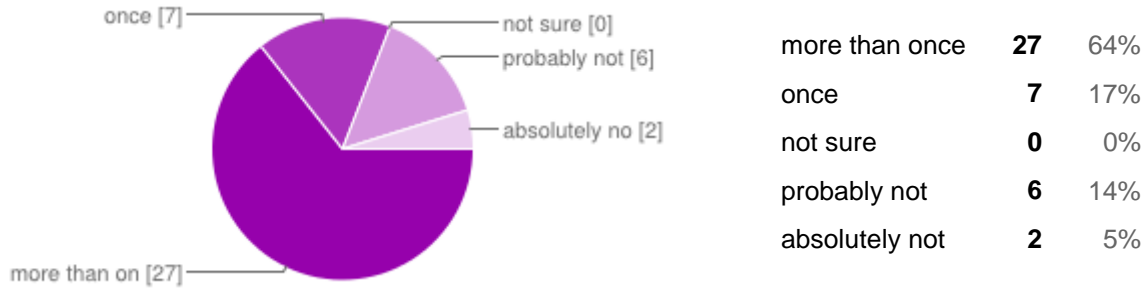

Additional comments:

Mainly when the tutor is not paying attention

ATTACHMENT D

A few things but not too much
 I might have but we usually catch it. Everyone makes mistakes!
 Once in a while but they always catch it and correct it.

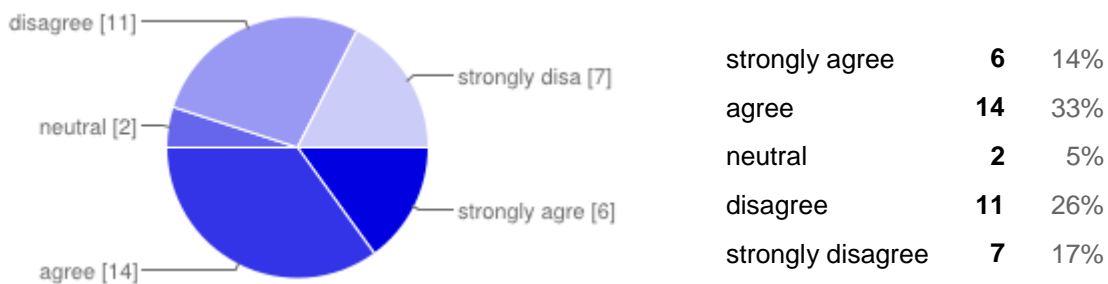

The tutors have shown me methods that differ from the book or the way my teacher teaches it in class.

Additional comments:

They were wholly helpful
 I am using an online (Aleks) math program that does not completely cover the subject matter. Tutors have been extremely helpful for this.
 Sometimes this is good and sometimes it is too advanced.
 A few times but its better
 In a good way
 That's the way Math goes! There is more than one way to do it.
 Always better :)
 Showed him the way the teacher is teaching and picked light up on it.
 And that was a good thing
 At times it is useful to obtain different perspectives on solving problems.
 They help me find ways to look at the material that fit my way of thinking better

I have used other learning support services (other than the TLC) for math help at the college.

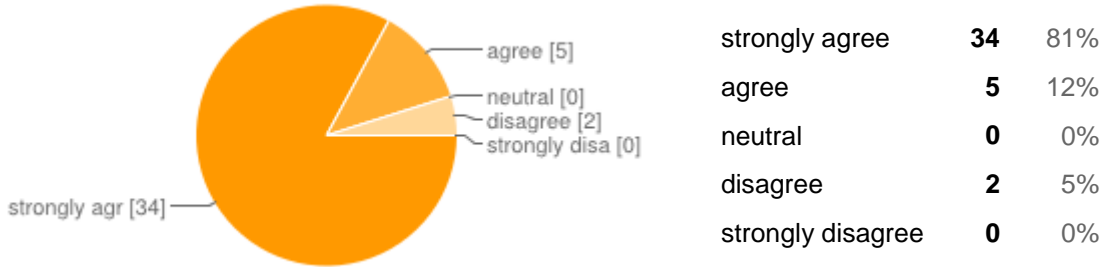

Additional comments:

IVC Thursday evening with Laurie Ordin
 Math lab, but I like the student tutors more

ATTACHMENT D

Here works best though
Khan Academy
Math lab
Khan Academy is helpful
This is it

I feel comfortable asking for help from the tutors in the Tutoring Center.

Additional comments:

Most def.

Some tutors are in a hurry to get back to their own homework, making me feel rushed, or

Sometimes I feel comfortable, but many times I don't or I have to interrupt tutors to get help. Some of the tutors are talking with other math tutors. They are discussing their tests, their other classes, or on their computers. I heard one tutor say, while he had a steady number of people coming for tutoring, "well I guess I'm not going to get any homework done today," and he closed his book.

I didn't need to ask no one else. Daniel helped me and answered all my questions.

No one has ever made me feel selfish or stupid or that I am wasting their time.
