

A.S. in Nursing, Registered, Occupational or Transfer

A.S. DEGREE MAJOR

The Registered Nursing Education Program, in preparation for licensure as a registered nurse, is offered only at the Kentfield Campus and requires two academic years of prescribed courses, including acquisition of the Associate in Science degree. The curriculum is offered in four semesters. Clinical placements require day and evening scheduling Monday through Sunday. Because the clinical rotations are scheduled on both days and evenings, it is strongly recommended that all prerequisites and corequisites for registered nursing licensure and the Associate of Science degree be taken prior to entry into the program.

PROGRAM REQUIREMENTS

A.S. in Nursing, Registered, Occupational or Transfer (Total 45.5)

Complete all of the following

PROGRAM LEARNING OUTCOMES

- Demonstrate caring that acknowledges the worth and dignity of all individuals, through skillful use of interpersonal processes and therapeutic nursing interventions.
- Apply the nursing process in a variety of settings to assist clients to promote, maintain, and restore optimal wellness, or provide support during the dying process.
- Perform therapeutic nursing interventions competently, applying knowledge of culture and human development.
- Apply effective written, verbal, and nonverbal communication techniques in interactions with client(s) and members of the health care team.
- Manage care for a group of clients, prioritizing, delegating and coordinating aspects of care and maximizing use of available resources while assuring quality and safety.
